### Accident at Brownsville Where Department Attended Field Meet

By the breaking of a ladder in a fire escape demonstration, two members of the Charleroi Fire Department were seriously injured at Brownsville Thursday, where the local department had gone ta participate in a field meet at the up river town. The injured are:

**Clifford Marchand**, aged 24 years, of Charlero; back injured, hurt internally and bruised all over the body.

**Carl Schempp**, aged 23 years, also of Charleroi, badly bruised about the body and thumb dislocated.

At the time of the accident the Charleroi department was giving a demonstration of the Davis Automatic Fire Escape. This is a rope which passes through a pulley, and being attached to some high high point, permits a person to descend slowly. The demanstration was being given from the fourth story of the Barr Hotel, about 40 feet from the ground. A ladder had been run out of the window to which the escape was attached. Individual descents had been made, when Marchand attempted to demonstrate the use of the device in carying a person down with him. Carl Schempp was selected for the test and the two climbed out on the ladder to make the descent. Before they started downward, the ladder broke with their combined weight, and both dropped to the ground a distance of about 40 feet striking the hard cement pavement below.

The men were picked up bruised and dazed and taken into the Barr House. Dr. H. H. Messmore was called and attended their injuries. Schempp had fallen on top of Marchand, who was in the act of conveying him down the escape which broke the force of the fall. Later the injured firemen were placed on cots and taken to Charleroi on the evening train, and conveyed to their homes The accident put a damper upon the festivities, which up to that time had been most enjoyable.

At this writing thefull extent of their injuries is not known, and it is feared that Marchand sustained serious internal injuries.

# *League to Act as One*

### Colored Voters Indorse Republican County and Borough Candidates

The Afro-American League of Charleroi held their third monthly meeting last night and after the business was transacted they discussed the political situation in the county and borough. One speaker was present from Centerville and two from Monongahela, who have some light upon various county candidates. A full ticket of county and borough candidates was endorsed by the League.

# GOVERNOR ATTENDS THE FAIR

### Greeted by Thousands of Loyal Friends at County Seat

### MORGANZA BOYS DRILL

Yesterday was Governor's day at the Washington county fair, Governor John K. Tener going over from his home here in his automobile. Governor Tener witnessed a part of the racing, viewed the exhibits and returned home last evening.

It was the big day of the four-day fair and 15,000 persons were on hand. Every section of Washington and Greene counties was well represented, while Allegheny County and Pittsburg poured in hundreds of pleasure seekers.

Washington turned the school children, college students and seminary girls loose. The county Court House was shut up, all the county officials and their clerks going to the fair grounds. Candidates for county offices were on hand to pass around cards.

Just before the beginning of the racing was the military drill exhibition given in front of the grandstand by the boys of the Western Pennsylvania Reform School at Morganza. The boys in their blue unforms and accompanied by the Morganza Military Band, arrived in a special car, escorted by Superintendent W. F Penn and some of his aides. The company was in charge of Commandent of Cadets Major George W. Beckett, while the band was led by Professor S. F. Sullivan, instructor of music at the school.

The chief address of the day was delivered by Attorney Robert W. Irwin of Washington, who discussed "Farm Life at Its Best."

Despite the heavey rains of the previous night, the half-mile track had been put in the best of shape when the gong sounded for the first race, and every seat in the two grandstands was occupied, while the surrounding hills were filled with spectators.

# *CHARLEROI FIREMEN WIN IN FIELD MEET*

### Local Boys Tie Brownsville at Baseball and Win Hose and Ladder Race--Team Did Not Enter Water Battle

But for the accident that marred the enpoyment of the day near the close of the events the Firemen's field meet at Brownsville Thursday would have been most enjoyable. The Charleroi Volunteer Fire Department, which went to the up river town by special invitation, was most royally treated, and won honors in the contests generally.

The ball game in the forenoon between teams from the Charleroi Fire Department and South Brownsville was a tie in six innings, the score being 7-7. Charleroi's lineup was as follows: Woodward, short; Jolliffe. pitcher; Frye, first; Marchand, catcher; Wingett, third, Worthington, second; Fell, left; Schempp, middle; Jones right. Jones of Charleroi was the slugger, annexing two doubles and athree bagger.

In the afternoon the hub and hub race was won by the Charleroi boys they beating Brownsville from wire to wire, running the 100 yards on the brick street in 15 4-5 seconds. The ladder race was also won by Charleroi, this event being decided by each team running against time. The winners' time was 11 1-5 seconds while the South Brownsville lads went the route in 15 2-5 seconds.

Dr. A. C. Abraham officiated as starter; L. C. Waggoner of South Brownsville, and George H. Matthews of Charleroi were judges; Dr. James E. Magee and Harry M. Crawford were timers. Following these events came the exhibition at the Barr house.

Owing to the acicdent Charleroi did not enter the water battle, which was fought between two picked teams.

# ELECTROCUTED IN NEARBY MINES

### Two Killed in Different Locations About the Same Time

Within a few hours two well known young men of the river section met instant death in exactly the same manner, each being electrocuted in the mine in which he was employed. The victims of the deadly fluid were Frank Martin, aged 20 years, and George Durst, aged 25 years.

Martin was killed early yesterday morning in the Cincinnati mine near Monongahela. He was a member of the night shift and as he passed through the mine he came in contact with a live wire, death being instantaneous. His body was found a short time later. Martin's home was at Cincinnati.

Durst, whose h ome was at Fayette City, was killed in the mines at that place the previous evening. He was passing through the mine when he encountered the live wire which brought instant death. He leaves his wife and three children. Funeral services will be held at the Durst home today, the interment to be in the Monongahela cemetery

A full attendance of the local circles is very much desired this evening as a special feature or two will be pulled off concluding with a social sesssion.

# WORKERS HOLD ANNUAL RECEPTION

### Cradle Roll and Home Department of Church Have Pleasant Time

The Home Department and Cradle roll officers of the Washington Avenue Presbyterian church held their annual reception for the members and their friends at the church yesterday afternoon. Special music had been provided and addresses were made by Miss Jennie Pollock of Canonsburg, and Rev John R. Burson the pastor of the church. More than 40 cradle roll members were present, and these were entertained in a joyous manner.

More than 60 adults, members and friends of the Home Department came together and joined with the little ones in a pleasant afternoon. Miss Pollock is the Washington county president of the Home Department work, and her address, together with that of the pastor, was much appreciated. At the close of the program a luncheon was served, and a social hour was spent in which good fellowship reigned and all departed inspired to do better work in the future.

### Taxpayer Calls Attention to Fitness of Present Councilman

### GOOD MAN TO RETAIN

To the Editor of the Charleroi Mail:

Sir—Without desiring to reflect upon the fitness or ability of any of the other candidates for the nomination for council to be voted upon at primaries tomorrow, I desire to call the attention of the voters and taxpayers to the particular fitness of W. R. Gaut, one of the present members of the councilmanic board, who is a candidate for re-election.

Mr. Gaut has been tried and not found wanting. He has been a faithful public servant since he became a member of the board, and has been assiduous in performing the duties of his office. He is a man of good business ability, progressive in proportion to the means of the borough in making needed improvements, and conservative in the expenditure of the taxpayers' money. He stands for law, order and good citizenship, and the fact that there is no organized effort for corruption or viciousness in Charleroi today, speaks well for the official administration of the borough, of which Mr. Gaut has been a leading factor.

As the council will change its personnel to a considerable extent, the voters will do well to retain Mr. Gaut whose business ability, judgment and good sense is needed to retain the balance of the councilmanic board which has given Charleroi the good government it has enjoyed in the past.

TAXPAYER.

### Borough and County Candidates Busy Making Final Roundup

### HOT FIGHT TOMORROW

### Republican Nominations the Storm Center and No One is Sure

With everybody on the quivive today, it is easy to seen that there is politics in the air. Between the interest manifested in county and borough nominations, it is quite evident that the fire under the pot is at white heat. Every local candidate is doing more or less hustling today, while the friends of the respective county candidates are also trying to get in their final licks. Today every one thinks politics, talks politics and act polics. Until after the primary tomorrow there will be little else thought of by the male population at least.

As far as the county candidates are concerned, every one is at sea. As a matter of course the contest centers in the Republican nominationss, not only in the county but in the borough. While there has been an alleged attempt to frame up a county slate by certain elements in various parts of the county, it is more than evident that the framers are not dead sure that it will win, and each and every candidate is not relaxing any vigilance or effort. All realize that it is the voters who have the final say and the election is not at all perfunctory, as in the old days when a handful of interested ones could name a bunch of delegates in a precinct and have them counted for a candidate in the county convention as the full quota of voters in that district Now it is votes that count, and in these days of independence and insurgency there is no telling what may happen.

As the Mail has previously stated the river district has been the battle ground for the whole county and even today a few candidates from various parts of the county are making the final round-up. A rather peculiar feature of the campaign is that it has been chiefly a newspaper campaign. The most of the candidates have used the newspapers more freely than ever before for the purpose of publicity, and every paper in the county has been a vertiable picture gallery as well as an autobiographical album, in which the qualifications and claims of the various candidates are set forth. Those candidates who have followed up their advertising by personal visitations among the voters report that the newspaper publicity has been most effective in introducing them to the people, but whether it will get the voters remains to be seen.

In the borough there are signs of a hot contest for justice of the peace and for the nominations for council and school board. The storm center is for the Republican nominations, but the real struggle will be at the November election. The local Democratic-Fusion forces are working

### New Tuberculosis Remedy Based on Medicine

To say that a specific exists for the cure of Consumption is perhaps too strong a statement, but in Eckman's Alterative we have a medicine that has been the means of saving many a life to years of usefulness, and in permanently curing a large number of Consumptives.

Certainly a person afflicted with a wasting disease should be well fed with wholesome, nourishing food, but frequently raw eggs in quantities cause a digestive breakdown, and then no food nourishes. As for milk, a very good food for many, but a producer of biliousness for some.

Any diet that keeps a Consumptive well nourished is the right one, but what is going to cure the patient?—Eckman's Alterative has cured and is curing many a case of Consumption. Let those speak who know. Here is a specimen:

90 Savannah St., Rochester, N. Y.

"Gentlemen. On June 3, 1907, I was operated upon for Tubercular peritonitis, at St Mary's Hospital, Rochester, N. Y. After the operation my physician gave me up as hopeless. I was then urged by a priest to take Eckman's Alterative, which I did. My weight at the time was 72 lbs. I began to improve and steadily gained in health and strength. I now weigh 125 lbs., and am absolutely cured. Believing I owe it to myself and others I make this statement."

(Signed Affidavit) EDNA FINZER.

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever; Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and W. F. Hennings', Charleroi, Pa.

## To The Voters of The County:

As a candidate for county treasurer on the Democratic and Keystone tickets I want to publicly pledge what I have privately expressed to all to whom I have submitted my claims as a candidate for this important office—that if nominated and elected I will be free to exercise the dudies of that office without obligations to any party faction, individual or banking institution.

I believe that the money of the county should be used by the treasurer so that the taxpayers will derive the greatest possible benefit.

I will purchase my own bond and will in no way, directly or indirectly, be under obligations to any financial institution.

I believe that the funds which are lying idle in the treasury should be working in the interests of the people. To that end I will deposit the funds where the county can secure the best rate of interest and at same time be amply secured. Further than this I believe that there are times, when certain funds can be placed at interest greater than any bank can afford to bid for the entire deposit and being free from any entanglements or from any obligations, implied or expressed, it will be my endeavor to so place the county's money at all times, as I would do if managing a large business enterprise or as I would do in my own private affairs.

To this end I will endeavor to keep the working balance in the county's depositories at the minimum, so that the remaining funds may be put out in the different financial institutions in the county, proportion to their standing, at rates which they afford to individuals. All the banks and trust companies in the county will be considered in this proposition and all will have an equal chance in handling the funds of the county. I believe in a "square deal" to all.

I have had a training in the banking business which I believe will be of value to the taxpayers of this county in conducting the important office of treasurer. I will aim at all times to make the office one for the people's benefit and not a sinecure for myself or for any banking institution.

I submit my candidacy for the nomination to the consideration of the voters of the Democratic and Keystone parties of Washington county.

### ASTRONOMICAL EVENTS.

(From noon today to noon tomorrow.) Sun sets 5:42, rises 5:51; moon sets 9:41 p. m.; moon at apogee, farthest from earth, distant, 251,200 miles; 6:24 a. m., eastern time, moon at first quarter; planets Mercury and Venus visible in east at dawn.

### ON THEIR MERITS.

Whatever efforts may be made by the friends of the respective candidates for borough office, it is sincerely hoped that each and every one will stand squarely on his merits, and put forth no other claim for the office but the desire for the good of the public service and the advancement and development of Charleroi. The public owes no man or set of men a position, but every man who seeks a public position owes the public everything. As it is the public who pays the freight, it is right and proper that it should demand value received.

Factional discord is disastrous to any community, and any attempts to arouse personal antagonism or inject rancor into the election should be avoided. Every voter should have enough civic pride to make his selection of candidates on their merits, as on their fitness depends in a measure the progress of the town. Charleroi was never more in need of united effort to pull its business and industrial interests out of the slough of despond and for that reason should select candidate for borough office to represent the whole people rather than to satisfy personal ambitions of factional interests. Therefore the thing to do is to vote for the candidates on their merits at the primary tomorow.

### THE TRUST EXPLAINS

In view of the extraordinary price of sugar in canning time, the American Sugar Refining company, which refines 12 per cent of the sugar used in the United States, pays for some newspaper space in the daily newspapers of the large cities to tell the people why the source of sweetness is approaching Civil War prices. The reason is simple. It is this: Like the annual failure of the Delaware peach crop when the first shipments appear on the market, "there is a shortage in the crop of sugar cane, which may not be so great as expected by the first of the year, when the crop is all in and the women have their canning done and their preserves put up.

Our friends, the Socialists inform us that there is a duty or tax of 78 per cent on raw sugar, while the tax on diamonds is but 10 per cent. While this discrepencey may not have the economic bearing that the comparison is intended as diamonds are a luxury, and sugar a necessity—in relation to wages and the cost of production of the two commodities, it is a well known fact that the duty on raw sugar has enabled the refiners to practically control the market in the United States. Consequently when the annual short crop scare comes along—as it does with the regularity of the canning season—the trust, in order to be on the same side whoops up the price of sugar. That is all there is to it, except that this year the scare was greater and the price was higher accordingly.

## PICKED UP IN PASSING

A pathetic incident occurred at the police office Thursday, when two women from Fairmont, West Virginia called, in search of a runaway girl, or one who had at least mysteriously disappeared from home. The fugitive was the daughter of one of the women, and their presence in Charleroi was due to the fact that a young man who formerly resided here had disappeared from Fairmont at the same time the girl did, and there was reason to believe that he had enticed the girl away from her home. Chief of Police Albright informed the woman that the young man had not shown up here, but that if they would issue a warrant on their return and mail it to him, he would arrest the man if he put in an appearance here.

During the interview the mother sat in silence with a look of stony despair on her face, while her companion, a younger woman did the talking. The latter produced a photo of the missing girl, and while Chief Albright was examining it the mother's eyes overflowed, and pointing to the chief's revolver, which lay on the table, she said:

"I have one of those, and if I see him he'll never get away."

"Oh, you must not think of that," replied the chief. "Let the law take its course. You'll have legal redress if you can catch him. Don't do anything like that."

The younger woman strove to comfort the mother, and the latter again relapsed into her attitude of silent grief. The missing girl is but 17 years old.

There's a candidate for county coroner up in Beaver county who is somewhat of a grim humorist His sense of humor is all the more pungent, inasmuch as it is apparently unconscious. Some one, in order to destroy this candidate's chances circulated the report that no one but a physician is eligible to the office of coroner, and to controvert this statement the candidate pays for space in a Beaver newspaper to deliver himself of the following:

"Several of our doctors have been circulating the story that no person other than a doctor was eligible to hold the office of coroner. I have been burying the mistakes of just such a class of doctors for the past 25 years, and am not surprised at any statement that they would make."

It is evident that this candidate has been or is an undertaker, and consequently his viewpoint from long years of grim association is somewhat of a sardonic nature.

## ROOM THAT IS SOUND-PROOF

**Remarkable Chamber at University of Utrecht That Was Constructed for Scientific Experiments.**

The Physiological institute of the University of Utrecht possesses one of the most remarkable rooms in the world, a chamber about seven and a half feet square, which is said to be absolutely noiseless, as far as the entrance of sounds from outside is concerned

This room is situated on the top story of a laboratory building, and is an inside room, but so arranged that it can be ventilated and inundated with sunshine The walls, floors and ceiling each consist of half a dozen layers of different substances, with air spaces and interstices filled with sound-deadening materials

Some persons when in the room experience a peculiar sensation in the ears While every effort has been made to exclude sounds that are not wanted, of course the object of constructing this singular room was to experiment with phenomena connected with sound. Some of the sounds employed are made in the room itself; others are introduced from outside by means of a copper tube, which is plugged with lead when not in use.

### Chess-Playing Automatons.

There have been several automaton chess players, but it should not be necessary to say that they were all worked by the man behind the machine, or rather, within or under the machine At the great fair held in the Crystal Palace, in London in 1851, an automaton played the game beautifully; and so early as 1753 Baron Von Kempelen of Hungary invented an audroid that was the marvel and wonder of the time Von Kempelen went all over Europe with his "Turk"

### Modern Teachers Criticised.

Our educators are owl-wise, our teachers are pedants and all their ambition is the turning out of smooth, well-polished philistines. It is certainly unfortunate that the favored type of superintendent of our public education should be such a hopeless philistine, possessed of all the conceit of the mediocre business man Routine is his ideal. Originality is spurned and suppressed—Dr. Boris Sidis.

**Cured by Lydia E. Pinkham's Vegetable Compound.**

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women." —MRS. WM. SEALS 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

### Cause for Grief.

George, aged 3½, was very cross and his wails louder than usual one day made his mother ask impatiently, "George, what in the world makes you cry?" With an injured catch in his voice George replied, "You would cry, too, if you hit the crazy bone in your head as I did"

## SNAPS FOR THE ALLIGATORS

**Goose Raiser Finally Found Out Just Why His Flock Did Not Increase.**

The oldest of us can remember being told that "Little Bopeep lost his sheep," but as they came home at last, Bopeep was not so badly off as was Bob Vorus, who six years ago started a goose farm on his mill pond, near Lumpkin, Georgia.

He knew the value of feathers, and thought the people would appreciate the opportunity of obtaining them near home for making pillows and beds.

His big mill pond was such a fine place for them to swim and live and raise their young in. So he got five hundred pairs of geese and put them on his pond.

Their nests were built in the rushes along its banks and their melodious voices reverberated from end to end of the pond. But they did not increase, according to Bob's notion; their numbers were diminishing perceptibly.

A dead one could be seen occasionally drifting along the edge of the bordering rushes. At first Bob thought it might be minks, otters, skunks, foxes, or what not that were destroying them, but soon found out that it was alligators for he actually saw one of the ugly reptiles catch a goose and pull it under water. Partly eaten geese would sometimes be found.

**Living Portrait of Mark Twain.**

A singular story comes from a small town in Pennsylvania, according to Harper's Weekly. On April 21, 1910, a cow was born on a farm near Alburtis at almost the identical moment when Mark Twain died at his home in Connecticut. On her right side, outlined in dark brown against a snow-white background, is a profile bust of that author. The likeness, which was plain at the birth of the calf, has grown more and more distinct, until it is now impossible to fail to identify the well-known features. Naturally, the cow was named Mark Twain. It is safe to say that the great humorist would have appreciated this joke of Nature at his expense.

**Don't Want 'Em Back.**

An economical young man who was much bored by the requests of fickle young women to return their photographs decided upon desperate measures to put a stop to the unnecessary expenditure of time and postage

He announced his intention of starting a Venus collection to contain the pictures of the 100 most beautiful women in the world, and now the girls never ask for their pictures

**Making Meeting Equal.**

One day a distinguished notary while breakfasting with a friend at a cafe in Paris indulged in some stinging comments on the public acts of Marshal Marmont. Suddenly another gentleman, dining at another table, arose and approached them, his mustache bristling with anger. "Sir," cried he tragically, "you shall give me satisfaction!" Are you Marshal Marmont?" quickly asked the notary "I have not that honor," was the indignant reply, "but I am his chief aide-de-camp." "Give me your card then, sir," said the notary, "I will send you my head clerk."

**Louis' Compliment to Conde.**

One need not overlook the enormous shortcomings of Louis XIV. as a man and as a king to admit that in some important respects he "tried to do his duty." He was a hardworking sovereign both in the sphere of administration and in that social sphere which was, to his mind, no less important. So courteous that he never passed the poorest woman about the palace without lifting his hat, he carried polite consideration to the level of a fine art. In the way of courteous speech there are few things nobler than his remark to the great Conde as the old hero was slowly ascending the great marble staircase at Versailles. Conde apologized for being so long in mounting the steps, at the top of which the king stood waiting. "Ah, cousin," Louis replied, "one moves slowly when one is laden with laurels."

**Objected to the Publicity.**

Man's instinctive and perfectly reasonable preference for reprimand delivered in private is illustrated by a story told by Lieutenant General Sir William Butler, G. C. B., in his "Autobiography."

A general commanding at Aldershot had been forcibly reprimanded by a royal commander in chief. He openly rebelled.

"I don't mind being called a fool," he said, "if it pleases your royal highness to call me so, but I do mind being called a fool before your royal highness' other fools," sweeping his hand toward the commander in chief's large and brilliant staff.

**Sympathetic.**

"By ginger!" roared Blithers wrathfully when his son informed him that he had flunked at college. "I'm blest if I know what to say. I"—

"I sympathize with you, dad," said Blithers, Jr., feelingly. "That's just the way it was with me when they asked me those blasted questions at examination!"—Harper's Weekly.

**Wanted His Money's Worth.**

Customer—I say, Mr. Barber, I don't hear your scissors at work on my hair. Barber (apologetically)—There is very little hair on your head, sir. Customer—That makes no difference. I pay my money and I want you to rattle the scissors on the bald place just the same as if I had hair on it.

# For County Commissioner
# THOMAS HILL
## Union Township
## Subject to Republican Rules

**The office of County Commissioner is the most important in the whole county. It has to spend hundreds of thousands of dollars of the people's money every year. All the public improvements are enactioned and constructed under its direction. It is the most important office for a section or locality to have representation in, although not one of great emolument or profit to the one holding it. It is strange to say that the boroughs and townships fronting upon the Monongahela River have never had representation upon the board in the majority party for over thirty years. This is the more remarkable because they have over one-third of the population of the entire county and have very often themselves furnished the majority to elect the commissioners and the entire Republican ticket. Is it fair to this great and most important district? Has this great valley received its proportionate share of public improvements? Of the thousands and hundreds of thousands of dollars spent upon the road improvements, how much has been spent along the Monongahela valley- The time is close at hand when the Republican voters of this great community can have a representative tried and true, and who is in touch with the River country, by putting the cross opposite the name of Thomas Hill of Union Township, whose name appears upon the official Republican ballot. He will see that this great section will receive its full share of public improvements. He believes that when money is collected as taxes from this district that improvements should come proportionately. He is opposed to the arbitrary increase of the assessment of a whole township or borough. He believes that the appeals from the assessments should be held in each locality, and that the people wishing to object to the assessment should not be compelled to take the time and expense or to go to the county seat to obtain their hearing. In other words, that the Commissioners should go to the people instead of compelling the people to go to them. If you believe that the Republican party should give the river district a representative, the first in thirty years, cast your vote for Thomas Hill.**

**The above appeared in the Charleroi Mail in its issue of April 10, 1908, and upon that platform Mr. Thomas Hill received a flattering vote from the River District and was nominated and elected County Commissioner. Has he made good these promises to the River District?**

# BRIDGES
## What Has He Done for Bridges

**At the time when he entered upon the duties of his office the building of the new bridge at Monongahela had been arranged for, yet, the contract had not been let, and the matter was being held up indefinitely, he and his associates immediately took up the matter and in a short time after their entry into the office the contract was let and the people of Monongahela were given a good substantial bridge over the Monongahela River. The Speers-Belle Vernon bridge has been made free during his administration, and he and his associates have been outspoken and persistent in favor of a bridge at W. Brownsville and nowsteps are being taken to build the same in conjunction with Fayette County.**

# ROADS
## What Has He Done for Roads

**The building of the Monongahela-Donora Road, the Charleroi-Bentleyville and the Roscoe-Stockdale, and the letting of the contract of the East Pike Run and the Finleyville-Monongahela by the State Highway Department are most convincing arguments in favor of a representative of the majority party from the River Section in favor of retention of Thomas Hill in the Commissioners Office.**

# APPEALS
## What Has He Done in the Matter of Appeals

**In the above he promised that appeals would be held in different sections of the county, instead of requiring all persons to come to the county seat which had formerly been the practice and worked a great hardship particularly to the people of the River District.**

**The loss of a day's time and the expense in going to and from the county seat amounted more to many people than the excess taxation they were obliged to pay by reason of an unfair assessment.**

**He and his associates have made this promise good by holding their appeals in different sections and in going to the people showed that they were the servants and not the Master. He further believes in equitable assessments to all property whether belonging to the rich or poor, white or black high or low, and in this respect he and his associates have done their best to bring this about.**

# COUNTY OFFICES
## He Believes In a Salary for the Other County Officials

**but this is not a matter which comes under the jurisdiction of the Board of Commissioners, but to bring about this end, he and his associates authorized a bill to be drawn putting the other county offices upon a salary basis, and had the same presented in the State Legislature. This bill, however, met with considerable opposition there and could not be passed.**

**In thus being a faithful representative of the River District does not mean that he has been unfair to others and he believes that all sections of the county should receive fair and equal treatment and his promise of courteous treatment to all having business in the office has been faithfully carried out.**

**Is not Thomas Hill a faithful representative of the people?**

# ECONOMY
## He Promised the People Economy In the County Affairs

**he and his associates have reduced the operations of the county many thousand dollars. When he took office in 1909, the county was deeply in debt and considerable money borrowed, paying interest on the same, and during the first year of their administration he and his associates were forced to raise the millage in order to pay off the out standing debts contracted by the predecessors, yet in the fallowing two years they have succeeded in reducing the millage three-quarters of one per cent less than it had formerly been.**

**See that Tom Hill is retained and put in the cross opposite his name and so doing you vote for good roads, free bridges and low taxes.**

## To the Voters of Washington County

I am a candidate for re-nomination for the office of District Attorney on the Republican ticket at the primaries to be held Saturday, September 30th, 1911.

During my present term you have had an opportunity to observe the manner in which the office has been conducted. If the administration of the office during that period has met with your approval, then I respectfully ask for your support at the coming primaries.

If re-nominated and re-elected I promise that the policy of the office will be the same in the future as it has been in the past, and that its administration will not be influenced by questions of politics or of political expediency.

## FOR INDIGESTION

**Bad Dreams, Nervousness, Biliousness, and all Stomach Misery.**

Go to Piper Bros today don't procrastinate—get a fifty cent box of Mi-o-na stomach tablets and get rid of all that annoying gas, sourness, heartburn, bloating and heaviness, they guarantee them.

There wouldn't be so many deaths from acute indigestion if sufferers would constantly carry a few Mi-o-na tablets with them.

Read this from a man 64 years old and then decide whether you prefer to suffer longer or not.

"I am on my second box of Mi-o-na I received relief after taking two doses. I feel like a different man. I am 64 years old and Mi-o-na is the best thing I ever used for stomach trouble."—J. M. Burger, R. F. D. No. 3, Box 58, Wooster, Ohio. Fifty cents for a large box of stomach tablets at Pier Bros and druggists everywhere.

**What He Wanted.**

It was after the explosion, and Henderson sat on a rail fence gazing ruefully over the scene of ruin One of his wheels was still rolling onward over the pike. Another hung from the limb of a tree Other sections of the car were strewn about the highway, far and near.

"Ah me!" sighed Henderson. "To think that only last night I was in reaching against an assembled car! By Jove! I'd give $100 to anybody who'd come along at this very minute and see me now"—Harper's Week

# To the Republican Voters of Washington County

If the Republican party of Washington County wants to retrieve the losses of last year, and present its unbroken front of former years, it must purge itself of would-be bosses and come clean. The popular vote at the primaries makes the contest for the nominations an open field for every candidate, and any attempt or effort to dictate and control this vote is an insult to the intelligence of the voters and an injury to the principles of the objects of the great Republican party.

I believe it is to the interest of all good Republicans in the County to destroy all combinations and break all slates at the primaries that are designed to advance personal interests and traffic for future political honors and patronage. I believe that the people want candidates **WITH CLEAN RECORDS AND WHO ARE NOT SUBJECT TO DICTATION AND BOSSISM** to go before the voters in November, and for that reason I announced my candidacy for the nomination for **COUNTY TREASURER**, and have made my canvass personally and alone, **INDEPENDENT OF ANY BOSSES OR SLATE MAKERS.**

I appeal to the greet mass of independent voters of the Republican party—the voters who have to bear the brunt of the taxes and pay the bills—to support the independent candidate who is not a party to any political deals and has no interests to serve but the welfare of the public The official who serves the people is the one who keeps down the rate of taxation.

When I announced my platform I made specific pledges as to the handling of the county funds, I promised that—

If nominated and elected to the office of County Treasurer I will **ADVERTISE FOR BIDS FOR THE DEPOSIT OF THE COUNTY FUNDS. AND AWARD THE SAME TO THE BANKS THAT WILL PAY THE HIGHEST RATE OF INTEREST AND ARE ABLE TO PROPERLY SECURE THE COUNTY.**

No other candidate for County Treasurer has made such a specific pledge. Others have said they would deposit the county funds "to the best interests of the County," or words to that effect, but none have been so explicit as I have.

All that the law can compel a County Treasurer to do is to **GIVE BONDS FOR THE SAFETY OF THE FUNDS IN HIS CUSTODY, PAY OUT THE SAME ON PROPER VOUCHER, ACCOUNT FOR THE AMOUNT IN HAND, AND TURN OVER THE SAME TO HIS SUCCESSOR AT THE EXPIRATION OF HIS TERM.** A County Treasurer does not have to look to the profit of the county in handling the funds unless he sees fit to do so. I would secure interest on my idle funds I may have in the conduct of my private business, and I promise to do the same with the county funds if nominated and elected County Treasurer.

It is stated on good authority that the idle funds of the county now on deposit in banks and not drawing interest is **WORTH $1,000 A MONTH TO THOSE BANKS.**

**I PROMISE IF THE VOTERS NOMINATE AND ELECT ME TO THE OFFICE OF COUNTY TREASURER TO GIVE THE TAXPAYERS THE BENEFIT OF THIS PROFIT SO FAR AS POSSIBLE, INSTEAD OF THE BANKS.**

**WILL YOU GIVE ME YOUR VOTE FOR COUNTY TREASURER?**

A report has been circulated to the effect that if elected to the borough council I will beunable to attend from the fact that my work would not permit it. **The Weaker Sex.**

The young woman had spent a busy day.

She had browbeaten fourteen sales people, bullyragged a floorwalker, argued victoriously with a milliner, laid down the law to a modiste, nipped in the bud a taxi chauffeur's attempt to overcharge her, made a street car conductor stop the car in the middle of a block for her, discharged her maid and engaged another and otherwise refused to allow herself to be imposed upon.

Yet she did not smile that evening when a young man begged:

"Let me be your protector through life!"—Life.

**New Angle on Help.**

"Why did you inquire so particularly into the wardrobe of that girl you just hired?" asked one of two women who were leaving an employment agency.

"To find out how carefully she will guard against burglars," said the other. "My experience has been that a girl who has nice things of her own will lock up more securely at night and keep a sharper eye out for sneak thieves in the daytime than one who has nothing of value to lose."—New York Press.

"How effusively sweet that Mrs Blondey is to you, Jonesey," said Witherell. "What's up? Any tender little romance there?"

"No, indeed. Why, that woman hates me," said Jonesey.

"She doesn't show it," said Witherell

"No, but she knows that I know how old she is. We were both born on the same day," said Jonesey, "and she's afraid I'll tell somebody." — Harper's Weekly.

The first lighthouse was erected at Pharos, near Alexandria, in Egypt. It was finished in 285 B. C. Its height was 550 feet, and the light, which was kept burning on top at night, was visible forty-one miles away. This tower existed for some 1,600 years, when it was destroyed by an earthquake.

## TWO FIREMEN BADLY HURT IN 40 FOOT FALL

### Ladder Breaks While Local Men Were Giving Exhibition

### BOTH TAKEN TO HOMES

### Accident at Brownsville Where Department Attended Field Meet

By the breaking of a ladder in a fire escape demonstration, two members of the Charleroi Fire Department were seriously injured at Brownsville Thursday, where the local department had gone ta participate in a field meet at the up river town. The injured are:

Clifford Marchand, aged 24 years, of Charlero; back injured, hurt internally and bruised all over the body.

Carl Schempp, aged 23 years, also of Charleroi, badly bruised about the body and thumb dislocated.

At the time of the accident the Charleroi department was giving a demonstration of the Davis Automatic Fire Escape. This is a rope which passes through a pulley, and being attached to some high high point, permits a person to descend slowly. The demanstration was being given from the fourth story of the Barr Hotel, about 40 feet from the ground. A ladder had been run out of the window to which the escape was attached. Individual descents had been made, when Marchand attempted to demonstrate the use of the device in carying a person down with him. Carl Schempp was selected for the test and the two climbed out on the ladder to make the descent. Before they started downward, the ladder broke with their combined weight, and both dropped to the ground a distance of about 40 feet striking the hard cement pavement below.

The men were picked up bruised and dazed and taken into the Barr House. Dr. H. H. Messmore was called and attended their injuries. Schempp had fallen on top of Marchand, who was in the act of conveying him down the escape which broke the force of the fall. Later the injured firemen were placed on cots and taken to Charleroi on the evening train, and conveyed to their homes The accident put a damper upon the festivities, which up to that time had been most enjoyable.

At this writing thefull extent of their injuries is not known. and it is feared that Marchand sustained serious internal injuries.

## *League to Act as One*

### Colored Voters Indorse Republican County and Borough Candidates

The Afro-American League of Charleroi held their third monthly meeting last night and after the business was transacted they discussed the political situation in the county and borough. One speaker was present from Centerville and two from Monongahela, who have some light upon various county candidates. A full ticket of county and borough candidates was endorsed by the League.

## GOVERNOR ATTENDS THE FAIR

### Greeted by Thousands of Loyal Friends at County Seat

### MORGANZA BOYS DRILL

Yesterday was Governor's day at the Washington county fair, Governor John K. Tener going over from his home here in his automobile. Governor Tener witnessed a part of the racing, viewed the exhibits and returned home last evening.

It was the big day of the four-day fair and 15,000 persons were on hand. Every section of Washington and Greene counties was well represented, while Allegheny County and Pittsburg poured in hundreds of pleasure seekers.

Washington turned the school children, college students and seminary girls loose. The county Court House was shut up, all the county officials and their clerks going to the fair grounds. Candidates for county offices were on hand to pass around cards.

Just before the beginning of the racing was the military drill exhibition given in front of the grandstand by the boys of the Western Pennsylvania Reform School at Morganza. The boys in their blue unforms and accompanied by the Morganza Military Band, arrived in a special car, escorted by Superintendent W. F Penn and some of his aides. The company was in charge of Commandent of Cadets Major George W. Beckett, while the band was led by Professor S. F. Sullivan, instructor of music at the school.

The chief address of the day was delivered by Attorney Robert W. Irwin of Washington, who discussed "Farm Life at Its Best."

Despite the heavey rains of the previous night, the half-mile track had been put in the best of shape when the gong sounded for the first race, and every seat in the two grandstands was occupied, while the surrounding hills were filled with spectators.

## *CHARLEROI FIREMEN WIN IN FIELD MEET*

### Local Boys Tie Brownsville at Baseball and Win Hose and Ladder Race--Team Did Not Enter Water Battle

But for the accident that marred the enpoyment of the day near the close of the events the Firemen's field meet at Brownsville Thursday would have been most enjoyable. The Charleroi Volunteer Fire Department, which went to the up river town by special invitation, was most royally treated, and won honors in the contests generally.

The ball game in the forenoon between teams from the Charleroi Fire Department and South Brownsville was a tie in six innings, the score being 7-7. Charleroi's lineup was as follows: Woodward, short; Jolliffe. pitcher; Frye, first; Marchand, catcher; Winget, third, Worthington, second; Bell, left; Schempp, middle; Jones right. Jones of Charleroi was the slugger, annexing two doubles and athree bagger.

In the afternoon the hub and hub race was won by the Charleroi boys they beating Brownsville from wire to wire, running the 100 yards on the brick street in 15 4-5 seconds. The ladder race was also won by Charleroi, this event being decided by each team running against time. The winners' time was 14 1-5 seconds while the South Brownsville lads went the route in 15 2-5 seconds.

Dr. A. C. Abraham officiated as starter; L. C. Waggoner of South Brownsville, and George H. Matthews of Charleroi were j udges; Dr. James E. Magee and Harry M. Crawford were timers. Following these events came the exhibition at the Barr house.

Owing to the acident Charleroi did not enter the water battle, which was fought between two picked teams.

## ELECTROCUTED IN NEARBY MINES

### Two Killed in Different Locations About the Same Time

Within a few hours two well known young men of the river section met instant death in exactly the same manner, each being electrocuted in the mine in which he was employed. The victims of the deadly fluid were Frank Martin, aged 20 years, and George Durst, aged 25 years.

Martin was killed early yesterday morning in the Cincinnati mine near Monongahela. He was a member of the night shift and as he passed through the mine he came in contact with a live wire, death being instantaneous. His body was found a short time later. Martin's home was at Cincinnati.

Durst, whose h ome was at Fayette City, was killed in the mines at that place the previous evening. He was passing through the mine when he encountered the live wire which brought instant death. He leaves his wife and three children. Funeral services will be held at the Durst home today, the interment to be in the Monongahela cemetery

## WORKERS HOLD ANNUAL RECEPTION

### Cradle Roll and Home Department of Church Have Pleasant Time

The Home Department and Cradle roll officers of the Washington Avenue Presbyterian church held their annual reception for the members and their friends at the church yesterday afternoon. Special music had been provided and addresses were made by Miss Jennie Pollock of Canonsburg, and Rev John R. Burson the pastor of the church. More than 40 cradle roll members were present, and these were entertained in a joyous manner.

More than 60 adults, members and friends of the Home Department came together and joined with the little ones in a pleasant afternoon. Miss Pollock is the Washington county president of the Home Department work, and her address, together with that of the pastor, was much appreciated. ### Taxpayer Calls Attention to Fitness of Present Councilman

### GOOD MAN TO RETAIN

To the Editor of the Charleroi Mail:

Sir—Without desiring to reflect upon the fitness or ability of any of the other candidates for the nomination for council to be voted upon at primaries tomorrow, I desire to call the attention of the voters and taxpayers to the particular fitness of W. R. Gaut, one of the present members of the councilmanic board, who is a candidate for re-election.

Mr. Gaut has been tried and not found wanting. He has been a faithful public servant since he became a member of the board, and has been assiduous in performing the duties of his office. He is a man of good business ability, progressive in proportion to the means of the borough in making needed improvements, and conservative in the expenditure of the taxpayers' money. He stands for law, order and good citizenship, and the fact that there is no organized effort for corruption or viciousness in Charleroi today, speaks well for the official administration of the borough, of which Mr. Gaut has been a leading factor.

As the council will change its personnel to a considerable extent, the voters will do well to retain Mr. Gaut whose business ability, judgment and good sense is needed to retain the balance of the councilmanic board which has given Charleroi the good government it has enjoyed in the past.

## BOROUGH AND COUNTY CANDIDATES BUSY MAKING FINAL ROUNDUP

### HOT FIGHT TOMORROW

### Republican Nominations the Storm Center and No One is Sure

With everybody on the quivive today, it is easy to seen that there is politics in the air. Between the interest manifested in county and borough nominations. it is quite evident that the fire under the pot is at white heat. Every local candidate is doing more or less hustling today, while the friends of the respective county candidates are also trying to get in their final licks. Today every one thinks politics, talks politics and act polics. Until after the primary tomorrow there will be little else thought of by the male population, at least.

As far as the county candidates are concerned, every one is at sea. As a matter of course the contest centers in the Republican nominationss, not only in the county but in the borough. While there has been an alleged attempt to frame up a county slate by certain elements in various parts of the county, it is more than evident that the framers are not dead sure that it will win, and each and every candidate is not relaxing any vigilance or effort. All realize that it i the voters who have the final say and the election is not at all perfunctory, as in the old days when a handful of interested ones could name a bunch of delegates in a precinct and have them counted for a candidate in the county convention as the full quota of voters in that district Now it is votes that count, and in these days of independence and insurgency there is no telling what may happen.

As the Mail has previously stated the river district has been the battle ground for the whole county. and even today a few candidates from various parts of the county are making the final round-up. A rather peculiar feature of the campaign is that it has been chiefly a newspaper campaign. The most of the candidates have used the newspapers more freely than ever before for the purpose of publicity, and every paper in the county has been a vertiable picture gallery as well as an autobiographical album, in which the qualifications and claims of the various candidates are set forth. Those candidates who have followed up their advertising by personal visitations among the voters report that the newspaper publicity has been most effective in introducing them to the people, but whether it will get the voters remains to be seen.

In the borough there are signs of a hot contest for justice of the peace and for the nominations for council and school board. The storm center is for the Republican nominations, but the real struggle will be at the November election. The local Democratic-Fusion forces are working

### New Tuberculosis Remedy Based on Medicine

To say that a specific exists for the cure of Consumption is perhaps too strong a statement, but in Eckman's Alterative we have a medicine that has been the means of saving many a life to years of usefulness, and in permanently curing a large number of Consumptives.

Certainly a person afflicted with a wasting disease should be well fed with wholesome, nourishing food, but frequently raw eggs in quantities cause a digestive breakdown, and then no food nourishes. As for milk, a very good food for many, but a producer of biliousness for some.

Any diet that keeps a Consumptive well nourished is the right one, but what is going to cure the patient?—Eckman's Alterative has cured and is curing many a case of Consumption. Let those speak who know. Here is a specimen:

90 Savannah St., Rochester, N. Y.

"Gentlemen: On June 3, 1907, I was operated upon for Tubercular peritonitis, at St. Mary's Hospital, Rochester, N. Y. After the operation my physician gave me up as hopeless. I was then urged by a priest to take Eckman's Alterative, which I did. My weight at the time was 72 lbs. I began to improve and steadily gained in health and strength. I now weigh 125 lbs., and am absolutely cured. Believing I owe it to myself and others I make this statement."

(Signed Affidavit) EDNA FINZER.

Eckman's Alterative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung Troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet of cured cases and write to Eckman Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and W. F. Hennings', Charleroi, Pa.

## To The Voters of The County:

As a candidate for county treasurer on the Democratic and Keystone tickets I want to publicly pledge what I have privately expressed to all to whom I have submitted my claims as a candidate for this important office—that if nominated and elected I will be free to exercise the dudies of that office without obligations to any party faction, individual or banking institution.

I believe that the money of the county should be used by the treasurer so that the taxpayers will derive the greatest possible benefit.

I will purchase my own bond and will in no way, directly or indirectly, be under obligations to any financial institution.

I believe that the funds which are lying idle in the treasury should be working in the interests of the people. To that end I will deposit the funds where the county can secure the best rate of interest and at same time be amply secured. Further than this I believe that there are times, when certain funds can be placed at interest greater than any bank can afford to bid for the entire deposit and being free from any entanglements or from any obligations, implied or expressed, it will be my endeavor to so place the county's money at all times, as I would do if managing a large business enterprise or as I would do in my own private affairs.

To this end I will endeavor to keep the working balance in the county's depositories at the minimum, so that the remaining funds may be put out in the different financial institutions in the county, proportion to their standing, at rates which they afford to individuals. All the banks and trust companies in the county will be considered in this proposition and all will have an equal chance in handling the funds of the county. I believe in a "square deal" to all.

I have had a training in the banking business which I believe will be of value to the taxpayers of this county in conducting the important office of treasurer. I will aim at all times to make the office one for the people's benefit and not a sinecure for myself or for any banking institution.

I submit my candidacy for the nomination to the consideration of the voters of the Democratic and Keystone parties of Washington county.

**Busy Bohemian Spas.**

Some idea of the volume of business transacted at the great Bohemian spas may be deduced from the fact that the railroad office in Marienbad, which has a resident population of 6,297, receives from out-bound passengers for transportation tickets alone, exclusive of baggage receipts, $406,000 annually.

ON THEIR MERITS.

Whatever efforts may be made by the friends of the respective candidates for borough office, it is sincerely hoped that each and every one will stand squarely on his merits, and put forth no other claim for the office but the desire for the good of the public service and the advancement and development of Charleroi. The public owes no man or set of men a position, but every man who seeks a public position owes the public everything. As it is the public who pays the freight, it is right and proper that it should demand value received.

Factional discord is disastrous to any community, and any attempts to arouse personal antagonism or inject rancor into the election should be avoided. Every voter should have enough civic pride to make his selection of candidates on their merits, as on their fitness depends in a measure the progress of the town. Charleroi was never more in need of united effort to pull its business and industrial interests out of the slough of despond and for that reason should select candidate for borough office to represent the whole people rather than to satisfy personal ambitions of factional interests. Therefore the thing to do is to vote for the candidates on their merits at the primary tomorow.

THE TRUST EXPLAINS

In view of the extraordinary price of sugar in canning time, the American Sugar Refining company, which refines 42 per cent of the sugar used in the United States, pays for some newspaper space in the daily newspapers of the large cities to tell the people why the source of sweetness is approaching Civil War prices. The reason is simple. It is this: Like the annual failure of the Delaware peach crop when the first shipments appear on the market, "there is a shortage in the crop of sugar cane, which may not be so great as expected by the first of the year, when the crop is all in and the women have their canning done and their preserves put up.

Our friends, the Socialists inform us that there is a duty or tax of 78 per cent on raw sugar, while the tax on diamonds is but 10 per cent. While this discrepencey may not have the economic bearing that the comparison is intended—as diamonds are a luxury, and sugar a necessity—in relation to wages and the cost of production of the two commodities, it is a well known fact that the duty on raw sugar has enabled the refiners to practically control the market in the United States. Consequently when the annual short crop scare comes along—as it does with the regularity of the canning season—the trust, in order to be on the same side whoops up the price of sugar. That is all there is to it, except that this year the scare was greater and the price was higher accordingly.

## PICKED UP IN PASSING

A pathetic incident occurred at the police office Thursday, when two women from Fairmont, West Virginia called, in search of a runaway girl, or one who had at least mysteriously disappeared from home. The fugitive was the daughter of one of the women, and their presence in Charleroi was due to the fact that a young man who formerly resided here had disappeared from Fairmont at the same time the girl did, and there was reason to believe that he had enticed the girl away from her home. Chief of Police Albright informed the woman that the young man had not shown up here, but that if they would issue a warrant on their return and mail it to him, he would arrest the man if he put in an appearance here.

During the interview the mother sat in silence with a look of stony despair on her face, while her companion, a younger woman did the talking. The latter produced a photo of the missing girl, and while Chief Albright was examining it the mother's eyes overflowed, and pointing to the chief's revolver, which lay on the table, she said:

"I have one of those, and if I see him he'll never get away."

"Oh, you must not think of that," replied the chief. "Let the law take its course. You'll have legal redress if you can catch him. Don't do anything like that."

The younger woman strove to comfort the mother, and the latter again relapsed into her attitude of silent grief. The missing girl is but 17 years old.

There's a candidate for county coroner up in Beaver county who is somewhat of a grim humorist His sense of humor is all the more pungent, inasmuch as it is apparently unconscious. Some one, in order to destroy this candidate's chances circulated the report that no one but a physician is eligible to the office of coroner, and to controvert this statement the candidate pays for space in a Beaver newspaper to deliver himself of the following:

"Several of our doctors have been circulating the story that no person other than a doctor was eligible to hold the office of coroner. I have been burying the mistakes of just such a class of doctors for the past 25 years, and am not surprised at any statement that they would make."

It is evident that this candidate has been or is an undertaker, and consequently his viewpoint from long years of grim association is somewhat of a sardoinc nature.

## ROOM THAT IS SOUND-PROOF

**Remarkable Chamber at University of Utrecht That Was Constructed for Scientific Experiments.**

The Physiological institute of the University of Utrecht possesses one of the most remarkable rooms in the world, a chamber about seven and a half feet square, which is said to be absolutely noiseless, as far as the entrance of sounds from outside is concerned.

This room is situated on the top story of a laboratory building, and is an inside room, but so arranged that it can be ventilated and inundated with sunshine. The walls, floors and ceiling each consist of half a dozen layers of different substances, with air spaces and interstices filled with sound-deadening materials.

Some persons when in the room experience a peculiar sensation in the ears. While every effort has been made to exclude sounds that are not wanted, of course the object of constructing this singular room was to experiment with phenomena connected with sound. Some of the sounds employed are made in the room itself; others are introduced from outside by means of a copper tube, which is plugged with lead when not in use.

Chess-Playing Automatons.

There have been several automaton chess players, but it should not be necessary to say that they were all worked by the man behind the machine, or rather, within or under the machine. At the great fair held in the Crystal Palace, in London, in 1851, an automaton played the game beautifully; and so early as 1753 Baron Von Kempelen of Hungary invented an android that was the marvel and wonder of the time Von Kempelen went all over Europe with his "Turk."

**Modern Teachers Criticised.**

Our educators are owl-wise, our teachers are pedants and all their ambition is the turning out of smooth, well-polished philistines. It is certainly unfortunate that the favored type of superintendent of our public education should be such a hopeless philistine, possessed of all the conceit of the mediocre business man. Routine is his ideal. Originality is spurned and suppressed—Dr. Boris Sidis.

## SNAPS FOR THE ALLIGATORS

**Goose Raiser Finally Found Out Just Why His Flock Did Not Increase.**

The oldest of us can remember being told that "Little Boneep lost his sheep," but as they came home at last, Bopeep was not so badly off as was Bob Vorus, who six years ago started a goose farm on his mill pond, near Lumpkin, Georgia.

He knew the value of feathers, and thought the people would appreciate the opportunity of obtaining them near home for making pillows and beds

His big mill pond was such a fine place for them to swim and live and raise their young in So he got five hundred pairs of geese and put them on his pond

Their nests were built in the rushes along its banks and their melodious voices reverberated from end to end of the pond But they did not increase, according to Bob's notion; their numbers were diminishing perceptibly

A dead one could be seen occasionally drifting along the edge of the bordering rushes At first Bob thought it might be minks, otters, skunks, foxes, or what not that were destroying them, but soon found out that it was alligators for he actually saw one of the ugly reptiles catch a goose and pull it under water. Partly eaten geese would sometimes be found

**Living Portrait of Mark Twain.**

A singular story comes from a small town in Pennsylvania, according to Harper's Weekly On April 21, 1910, a cow was born on a farm near Alburtis at almost the identical moment when Mark Twain died at his home in Connecticut. On her right side, outlined in dark brown against a snow-white background, is a profile bust of that author. The likeness, which was plain at the birth of the calf, has grown more and more distinct, until it is now impossible to fail to identify the well known features Naturally, the cow was named Mark Twain. It is safe to say that the great humorist would have appreciated this joke of Nature at his expense

**Don't Want 'Em Back**

An economical young man who was much bored by the requests of fickle young women to return their photographs decided upon desperate measures to put a stop to the unnecessary expenditure of time and postage

He announced his intention of starting a Venus collection to contain the pictures of the 100 most beautiful women in the world, and now the girls never ask for their pictures

**Making Meeting Equal.**

One day a distinguished notary while breakfasting with a friend at a cafe in Paris indulged in some stinging comments on the public acts of Marshal Marmont Suddenly another gentleman, dining at another table, arose and approached them, his mustache bristling with anger "Sir," cried he tragically, "you shall give me satisfaction" "Are you Marshal Marmont?" quickly asked the notary. "I have not that honor," was the indignant reply, "but I am his chief aide-de-camp" "Give me your card then, sir," said the notary, "I will send you my head clerk."

### Louis' Compliment to Conde.

One need not overlook the enormous shortcomings of Louis XIV. as a man and as a king to admit that in some important respects he "tried to do his duty." He was a hardworking sovereign both in the sphere of administration and in that social sphere which was, to his mind, no less important. So courteous that he never passed the poorest woman about the palace without lifting his hat, he carried polite consideration to the level of a fine art. In the way of courteous speech there are few things nobler than his remark to the great Conde as the old hero was slowly ascending the great marble staircase at Versailles. Conde apologized for being so long in mounting the steps, at the top of which the king stood waiting. "Ah, cousin," Louis replied, "one moves slowly when one is laden with laurels."

### Objected to the Publicity.

Man's instinctive and perfectly reasonable preference for reprimand delivered in private is illustrated by a story told by Lieutenant General Sir William Butler, G. C. B., in his "Autobiography."

A general commanding at Aldershot had been forcibly reprimanded by a royal commander in chief. He openly rebelled.

"I don't mind being called a fool," he said, "if it pleases your royal highness to call me so, but I do mind being called a fool before your royal highness' other fools," sweeping his hand toward the commander in chief's large and brilliant staff.

### Sympathetic.

"By ginger!" roared Blithers wrathfully when his son informed him that he had flunked at college. "I'm blest if I know what to say. I"—

"I sympathize with you, dad," said Blithers, Jr., feelingly. "That's just the way it was with me when they asked me those blasted questions at examination!"—Harper's Weekly.

### Wanted His Money's Worth.

Customer—I say, Mr. Barber, I don't hear your scissors at work on my hair. Barber (apologetically)—There is very little hair on your head, sir. Customer—That makes no difference. I pay my money and I want you to rattle the scissors on the bald place just the same as if I had hair on it.

# For County Commissioner

# THOMAS HILL

## Union Township

## Subject to Republican Rules

**The office of County Commissioner is the most important in the whole county. It has to spend hundreds of thousands of dollars of the people's money every year. All the public improvements are enactioned and constructed under its direction. It is the most important office for a section or locality to have representation in, although not one of great emolument or profit to the one holding it. It is strange to say that the boroughs and townships fronting upon the Monongahela River have never had representation upon the board in the majority party for over thirty years. This is the more remarkable because they have over one-third of the population of the entire county and have very often themselves furnished the majority to elect the commissioners and the entire Republican ticket. Is it fair to this great and most important district? Has this great valley received its proportionate share of public improvements? Of the thousands and hundreds of thousands of dollars spent upon the road improvements, how much has been spent along the Monongahela valley. The time is close at hand when the Republican voters of this great community can have a representative tried and true, and who is in touch with the River country, by putting the cross opposite the name of Thomas Hill of Union Township, whose name appears upon the official Republican ballot. He will see that this great section will receive its full share of public improvements. He believes that when money is collected as taxes from this district that improvements should come proportionately. He is opposed to the arbitrary increase of the assessment of a whole township or borough. He believes that the appeals from the assessments should be held in each locality, and that the people wishing to object to the assessment should not be compelled to take the time and expense or to go to the county seat to obtain their hearing. In other words, that the Commissioners should go to the people instead of compelling the people to go to them. If you believe that the Republican party should give the river district a representative, the first in thirty years, cast your vote for Thomas Hill.**

**The above appeared in the Charleroi Mail in its issue of April 10, 1908, and upon that platform Mr. Thomas Hill received a flattering vote from the River District and was nominated and elected County Commissioner. Has he made good these promises to the River District?**

## BRIDGES

### What Has He Done for Bridges

At the time when he entered upon the duties of his office the building of the new bridge at Monongahela had been arranged for, yet, the contract had not been let, and the matter was being held up indefinitely, he and his associates immediately took up the matter and in a short time after their entry into the office the contract was let and the people of Monongahela were given a good substantial bridge over the Monongahela River. The Speers-Belle Vernon bridge has been made free during his administration, and he and his associates have been outspoken and persistent in favor of a bridge at W. Brownsville and nowsteps are being taken to build the same in conjunction with Fayette County.

## ROADS

### What Has He Done for Roads

**The building of the Monongahela-Donora Road, the Charleroi-Bentleyville and the Roscoe-Stockdale, and the letting of the contract of the East Pike Run and the Finleyville-Monongahela by the State Highway Department are most convincing arguments in favor of a representative of the majority party from the River Section in favor of retention of Thomas Hill in the Commissioners Office.**

## APPEALS

### What Has He Done in the Matter of Appeals

**In the above he promised that appeals would be held in different sections of the county, instead of requiring all persons to come to the county seat which had formerly been the practice and worked a great hardship particularly to the people of the River District.**

**The loss of a day's time and the expense in going to and from the county seat amounted more to many people than the excess taxation they were obliged to pay by reason of an unfair assessment.**

**He and his associates have made this promise good by holding their appeals in different sections and in going to the people showed that they were the servants and not the Master. He further believes in equitable assessments to all property whether belonging to the rich or poor, white or black high or low, and in this respect he and his associates have done their best to bring this about.**

## COUNTY OFFICES

### He Believes In a Salary for the Other County Officials

**but this is not a matter which comes under the jurisdiction of the Board of Commissioners, but to bring about this end, he and his associates authorized a bill to be drawn putting the other county offices upon a salary basis, and had the same presented in the State Legislature. This bill, however, met with considerable opposition there and could not be passed.**

**In thus being a faithful representative of the River District does not mean that he has been unfair to others and he believes that all sections of the county should receive fair and equal treatment and his promise of courteous treatment to all having business in the office has been faithfully carried out.**

**Is not Thomas Hill a faithful representative of the people?**

## ECONOMY

### He Promised the People Economy In the County Affairs

**he and his associates have reduced the operations of the county many thousand dollars. When he took office in 1909, the county was deeply in debt and considerable money borrowed, paying interest on the same, and during the first year of their administration he and his associates were forced to raise the millage in order to pay off the out standing debts contracted by the predecessors, yet in the fallowing two years they have succeeded in reducing the millage three-quarters of one per cent less than it had formerly been.**

**See that Tom Hill is retained and put in the cross opposite his name and so doing you vote for good roads, free bridges and low taxes.**

# To the Voters of Washington County

I am a candidate for re-nomination for the office of District Attorney on the Republican ticket at the primaries to be held Saturday, September 30th, 1911.

During my present term you have had an opportunity to observe the manner in which the office has been conducted. If the administration of the office during that period has met with your approval, then I respectfully ask for your support at the coming primaries.

If re-nominated and re-elected I promise that the policy of the office will be the same in the future as it has been in the past, and that its administration will not be influenced by questions of politics or of political expediency.

## FOR INDIGESTION

**Bad Dreams, Nervousness, Biliousness, and all Stomach Misery.**

Go to Piper Bros today don't procrastinate—get a fifty cent box of Mi-o-na stomach tablets and get rid of all that annoying gas, sourness, heartburn, bloating and heaviness, they guarantee them.

There wouldn't be so many deaths from acute indigestion if sufferers would constantly carry a few Mi-o-na tablets with them.

Read this from a man 64 years old and then decide whether you prefer to suffer longer or not.

"I am on my second box of Mi-o-na I received relief after taking two doses. I feel like a different man. I am 64 years old and Mi-o-na is the best thing I ever used for stomach trouble."—J. M. Burger, R. F. D. No. 3, Box 58, Wooster, Ohio. Fifty cents for a large box of stomach tablets at Pier Bros and druggists everywhere.

**What He Wanted.**

It was after the explosion, and Henderson sat on a rail fence gazing ruefully over the scene of ruin. One of his wheels was still rolling onward over the pike. Another hung from the limb of a tree. Other sections of the car were strewn about the highway, far and near.

"Ah me!" sighed Henderson. "To think that only last night I was inveighing against an assembled car! By Jove! I'd give $100 to anybody who'd come along at this very minute and reserve me a seat."—Harper's Weekly.

# To the Republican Voters of Washington County

If the Republican party of Washington County wants to retrieve the losses of last year, and present its unbroken front of former years, it must purge itself of would-be bosses and come clean. The popular vote at the primaries makes the contest for the nominations an open field for every candidate, and any attempt or effort to dictate and control this vote is an insult to the intelligence of the voters and an injury to the principles of the objects of the great Republican party.

I believe it is to the interest of all good Republicans in the County to destroy all combinations and break all slates at the primaries that are designed to advance personal interests and traffic for future political honors and patronage. I believe that the people want candidates **WITH CLEAN RECORDS AND WHO ARE NOT SUBJECT TO DICTATION AND BOSSISM** to go before the voters in November, and for that reason I announced my candidacy for the nomination for **COUNTY TREASURER**, and have made my canvass personally and alone, **INDEPENDENT OF ANY BOSSES OR SLATE MAKERS.**

I appeal to the greet mass of independent voters of the Republican party—the voters who have to bear the brunt of the taxes and pay the bills—to support the independent candidate who is not a party to any political deals and has no interests to serve but the welfare of the public The official who serves the people is the one who keeps down the rate of taxation.

When I announced my platform I made specific pledges as to the handling of the county funds, I promised that—

If nominated and elected to the office of County Treasurer I will **ADVERTISE FOR BIDS FOR THE DEPOSIT OF THE COUNTY FUNDS, AND AWARD THE SAME TO THE BANKS THAT WILL PAY THE HIGHEST RATE OF INTEREST AND ARE ABLE TO PROPERLY SECURE THE COUNTY.**

No other candidate for County Treasurer has made such a specific pledge. Others have said they would deposit the county funds "to the best interests of the County," or words to that effect, but none have been so explicit as I have.

All that the law can compel a County Treasurer to do is to**GIVE BONDS FOR THE SAFETY OF THE FUNDS IN HIS CUSTODY, PAY OUT THE SAME ON PROPER VOUCHER, ACCOUNT FOR THE AMOUNT IN HAND, AND TURN OVER THE SAME TO HIS SUCCESSOR AT THE EXPIRATION OF HIS TERM.** A County Treasurer does not have to look to the profit of the county in handling the funds unless he sees fit to do so. I would secure interest on my idle funds I may have in the conduct of my private business, and I promise to do the same with the county funds if nominated and elected County Treasurer.

It is stated on good authority that the idle funds of the county now on deposit in banks and not drawing interest is **WORTH $1,000 A MONTH TO THOSE BANKS.**

**I PROMISE IF THE VOTERS NOMINATE AND ELECT ME TO THE OFFICE OF COUNTY TREASURER TO GIVE THE TAXPAYERS THE BENEFIT OF THIS PROFIT SO FAR AS POSSIBLE, INSTEAD OF THE BANKS.**

**WILL YOU GIVE ME YOUR VOTE FOR COUNTY TREASURER?**

**JOHN H. BOWERS**

**Deep Mourning.**

The manager of the theater racked his brain in vain. "We must do something," he repeated, bitterly. "People will expect us to do something to show respect to the proprietor, now that he is dead." "Shall we close for the night of the funeral?" suggested the assistant stage manager. "With this business? You're a fool, laddie, a fool. No; put the chorus in black stockings." And it was even so.

**The Weaker Sex.**

The young woman had spent a busy day.

She had browbeaten fourteen sales people, bullyragged a floorwalker, argued victoriously with a milliner, laid down the law to a modiste, nipped in the bud a taxi chauffeur's attempt to overcharge her, made a street car conductor stop the car in the middle of a block for her, discharged her maid and engaged another and otherwise refused to allow herself to be imposed upon.

Yet she did not smile that evening when a young man begged:

"Let me be your protector through life!"—Life.

**New Angle on Help.**

"Why did you inquire so particularly into the wardrobe of that girl you just hired?" asked one of two women who were leaving an employment agency.

"To find out how carefully she will guard against burglars," said the other. "My experience has been that a girl who has nice things of her own will lock up more securely at night and keep a sharper eye out for sneak thieves in the daytime than one who has nothing of value to lose."—New York Press.

**She Was Right.**

"How effusively sweet that Mrs. Blonder is to you, Jonesey," said Witherell. "What's up? Any tender little romance there?"

"No, indeed. Why, that woman hates me," said Jonesey.

"She doesn't show it," said Witherell.

"No, but she knows that I know how old she is. We were both born on the same day," said Jonesey, "and she's afraid I'll tell somebody."—Harper's Weekly.

**The First Lighthouse.**

The first lighthouse was erected at Pharos, near Alexandria, in Egypt. It was finished in 285 B. C. Its height was 550 feet, and the light, which was kept burning on top at night, was visible forty-one miles away. This tower existed for some 1,600 years, when it was destroyed by an earthquake.

**The Idea.**

"Can a married man acquire happiness?"

"Sure! You don't think that bachelors are the only ones that die, do you?"—Toledo Blade.

**Generally.**

"Pa," said Freddy, "what is a social scale?"

"Generally speaking," replied pa, "it's a place where they weigh money."
